2002 Monaco Dynasty Regent (160822)

This is a 2002, 40 foot, 400 HP Cummins, two slides on the drivers side, tag axials, Power cord reel (50 amp), beautiful coach.

This is a very nice coach. My wife and I were in it full time. I would not hesitate to travel across the country or up to Alaska. Hawaii, not so much. It is cold weather ready. We have camped near the south entrance to Yosemite National Park in May for a month (Sugar Pine Christian Camp CA-253). It snowed and got cold, but the coach was warm with the aqua-hot heating system. There are many other good things in and on the coach that make living in it comfortable. We have now bought a house in NW Arkansas. We won't need this large of rig anymore.

We are asking ~~\$72000~~ \$60000. for anyone using the coach for ministry.
